Scanned with OKEN Scanner

Terms:

- Canteen & Transportation (On Subsidized Rate)

- Attendance award Rs 750 (On Full Present)

Note: High-potential candidates may move to DET after 1 year based on performance & organizational requirement in line with HODs recommendation.

Performance Review & Confirmation

- Quarterly reviews will be conducted to assess attendance, training progress, technical competence, and conduct.

- Annual performance evaluations will determine salary progression, conversion from apprenticeship to FTE, or extension/exit decisions.

- FTE hires will be under probation for the first 3 months, after which confirmation to continue will be based on review.

Job Description :

A) Department : Production

- Operate and monitor automated welding machines, including robotic welding cells and CNC welders.

- Load and unload parts from welding machines, ensuring proper fixturing and orientation.

- Monitor welding machine parameters, such as voltage, current, wire feed speed, & make adjustments as needed.

- Perform quality checks on welded parts, including visual examinations and dimensional inspections.

B) Department : Quality

- Inspection & Testing: Conduct visual & dimensional inspections, as well as functional testing with quality standards.

- Defect Identification: Identify and document defects, including classification and prioritization.

- Quality Control: Perform quality control checks, including inspection of raw materials, and finished goods.

- Documentation: Maintain accurate and detailed records of inspections, tests, and defects etc.

C) Department : Tool & Die

- Tool & Die Setup: Set up and adjust tooling and dies to meet production requirements.

- Machine Operation: Operate various machining equipment, such as milling machines, lathes, and grinders.

- Die Maintenance: Perform routine maintenance and repairs on tooling and dies.

- Quality Control: Inspect tooling and dies to ensure they meet quality standards.
